J. Annual Training		<input checked="" type="checkbox"/>		

Training and demonstration test requirements

- From the date of issue of a Level 2 Award in MOT Testing, a demonstration test must be successfully completed on a vehicle of testable age, within 6 months. If the request for a demonstration test is over 6 months and up to 5 years from that date, the current years MOT annual training and MOT annual assessment and any additional training must be completed prior to the demonstration. Should this time period exceed 5 years they will need to re-attend initial training.
- To maintain their testing status, a tester must complete a full MOT test within a 6 month period. If a full test is not completed the testers status becomes lapsed.
